Changes to the Sentinel Sponsor Admin View

From the 18th May 2016, the Sponsor Admin Logon page will have some additional tabs (Logbook and Safety Briefings), which relate to the new Site Access functionality. These tabs will appear because we are running a Pilot Project to test the new functionality and therefore we have had to release the updated Core Sentinel to everyone.

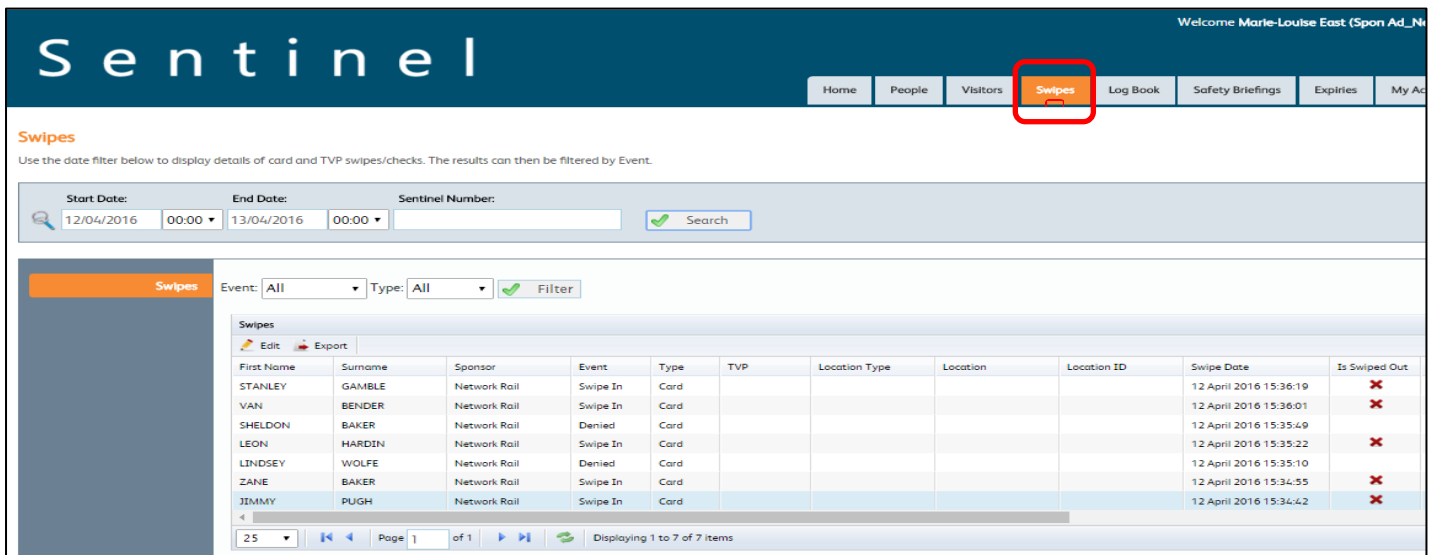

Current view of Sponsor Admin page on Sentinel:

New view of Sponsor Admin page on Sentinel:

You will also see that the 'Swipes' tab now contains additional columns. The majority of these will be unpopulated until you start using the new Site Access functionality, which will GO LIVE on a national level from 30 June - **pending the outcome of the Pilot Project**.

You will not see any data in the 'Log Book' or 'Safety Briefings' tabs until you are using the full Site Access functionality, when we GO LIVE at national level.

Finally, you will also see extra sections on the 'People' tab during the Pilot Project, which will give you details of that particular person's Log Book, Inductions and Safety Briefings when we GO LIVE with full Site Access functionality at national level.

Please note that nothing else has changed and you can continue to use your login in the same way as before.
